Career Objective

3rd year B.Tech Computer Science student interested in cloud computing and software development. Experienced with Python, Flask, and databases through academic projects. Seeking opportunities to apply technical skills and gain practical industry experience.

Academic Credentials

B.Tech in Computer Science Engineering (CGPA – 7.0)

2023 – 2027

Indore Institute of Science and Technology, Indore

Higher Secondary School (Percentage of 75%)

2022

Skills

Languages: C, C++, Java, JavaScript, Python, SQL

Frameworks: Flask

Tools: Git, Linux, VS Code

Database: MySQL, SQLite

Cloud: AWS Fundamentals (IAM, EC2, S3)

Computer Science Fundamentals: Data Structures, OOP, Operating Systems, DBMS

Soft Skills: Teamwork, Leadership, Communication

Projects

AI-Based Dark Data Mining System — *Python, Flask*

2026

- Developed a Python–Flask system to analyze uploaded files (PDF, DOCX, TXT) and detect sensitive data.
- Implemented automated file processing to support multiple document formats efficiently.
- Designed a dashboard to display alerts and insights from scanned data.

Blood Bank Management System — *Java Swing, SQL*

2025

- Built a blood bank management system to manage donor and recipient records.
- Implemented donor registration and blood availability search for multiple blood groups.
- Integrated a database to efficiently store and retrieve donor information.

Farmer Direct Marketplace Platform — *Web Development*

2024

- Designed a platform concept to help farmers sell products directly to buyers.
- Proposed a solution to reduce middlemen in the agricultural supply chain.
- Developed a basic structure connecting farmers, consumers, and businesses.

Achievements & Certifications

- Qualified the **first round of Smart India Hackathon (SIH)** with a team project focused on solving real-world problems.
- Participated in a **College Hackathon**, collaborating with a team to design and develop a project within a limited timeframe.
- Earned a certification in **Python Programming**.
- Completed coursework in **Introduction to Cloud Computing**.
